NUMB. 3414

FRIDAY, MARCH 18. 1743.

Yesterday arriv'd a Mail from France.

Berlin, March 16.

HIS Majesty confers frequently with the Earl of Hindford, Minister from his Britannick Majesty; and the Marquis de Botta-Adorno is quickly expected here from the Queen of Hungary, on whose Arrival, it is said, that some new Negotiations will be set on Foot for settling and securing Tranquillity of Europe. Count Althan, Commander the Order of Malta in the Kingdom of Bohemia, is y arrived here, and is charged with a Commission ing to the Affairs of that Order in Silesia.

Francfort, March 17. The Army of Observation to composed of the Troops of the Neutral Princes of Empire, was as little agreeable to this Court, as to of Vienna, and therefore was laid aside. Some of Politicians say, his Imperial Majesty will take the d in Person, and others, that we shall shortly see a ce, in Germany at least. Our hopes as to the King Prussia's hindering the March of the Allies, are dis-ointed, and it is no longer doubted here, that the tch will also send their Quota wherever the Courts London and Vienna desire.

Geneva, March 18. We expect every Day from Ma- a Deploma, by which the King of Spain yields up Duchy of Savoy to Don Philip, who will according- assume the Title of Duke of Savoy, and has already der'd a Great Seal to be made at Lyons, in which the ms of Savoy are quarter'd with those of Spain.

Of all the Reinforcements Don Philip expected, only Swiss Battalions are arrived, and are Quarter'd at Tho- u and Evian, on the Bank of the Lake; the whole anish Army, according to the best Accounts we can , amount but to 17,000 effective Men, so much have y been reduced by Sickness and Desertion. How- er, what remains are in a pretty good Condition, espe- lly the Horse. A Report prevails here, that the Troops t were marching from Spain have received Orders to lt; whether it is from a Dread of an English Invasion, because they see the Impossibility of penetrating into aly, though their Troops be never so numerous, we nnot determine, tho' the latter seems the most likely, r the Passes of Mount Cœnis and Mount St. Bernard e exceedingly well guarded and secured by the Pied- ontese Troops; and on the Side of Vallais all their opes are cut off, the Peasants having entirely ruin'd all e Roads that lead out of Savoy into their Country, ex- pt that near St. Gingo, where they have undermined e Rock in order to blow it up upon occasion.

Some Days ago the Marquis of Fleury Trivice, an Of- cer of Distinction in the Spanish Army, was carried risoner to Chamberry, for saying in Publick Company, hat the Army in Italy was worsted at Campo Santo. And yet it is certain, that the said Army, when drawn p at Remo, fell short of 8000 Men, and were in a mi- erable shatter'd Condition; so that it is thought they must soon retire into the Kingdom of Naples, or the States Delli Presidii.

We hear from several Places in Lombardy, that it is not doubted, but that the united Armies of the King of Sardinia and the Queen of Hungary, will soon be 40,000 strong.

The Day before Yesterday M. Turrettin, our Deputy to Don Philip, arrived here unexpectedly, and this Morn- ing made his Report to the Council, viz. that the Marquis de las Minas assured him, that Don Philip was willing to settle a *Modus vivendi* with the Republick, upon the Footing of the Treaty of St. Julian; and that if he pleased, they would set out together for the Frontiers, in order to determine the Affair upon the Spot. They accordingly came away together; M. Turrettin proceeded hither, and with another Magistrate is to meet the Marquis To-morrow at St. Julian. And yet not long ago the Marquis De Ensenada said, that no Regard would be had to the said Treaty.

Hague, March 22, The Marquis de Fenelon has been of late extremely taken up, and it is whisper'd, that we shall soon see a very elaborate Treatise on the Means of preserving the Liberty and Balance of Power in Europe, in which will be shewn the Mistakes of such as appre- hend either to be affected by the Power or Influence of France; but —— *credat qui vult.*

Extract from the Paris Alamain.

Paris, March 22. 'M. L'Abbé Bignon, Dean of the 'Counsellors of State, Library-Keeper to the King, Abbot 'of St. Quintin, &c. died here the 14th of this Month, 'aged 80. Abbot Pompone is now Dean of the Council 'of State. The Abbé de St. Cyr, Sub-Preceptor to the 'Dauphin, succeeds the Deceased as Counsellor of State, 'and M. de Bignon, Master of Requests, and President in 'the Grand Council, is appointed Library-Keeper.

'The King has ordered, That for the future, on any 'Application for a Letter de Cachet, the Person who 'desires it, shall exhibit a Charge, which shall be delivered 'to the Party accused, in order to his making his De- 'fence.

'His Majesty has written to the Bishops, that for the 'sake of the Peace of the Church they should forbear 'denying the Sacrament, or Christian Burial.

'The Prince of Conti, since his Return from Bava- 'ria, dines and sups with his Majesty.

'The Prince of Tour and Taxis, who raised a Regi- 'ment of Dragoons, is now raising a Regiment of Cui- 'rassiers for the Emperor's Service.

'The Marquis de Fenelon has had Orders to demand 'a Categorical Answer from the States-General, which 'is expected by the next Courier.

'The Duke of Bouillon sets out speedily for Madrid, 'to demand one of the Infantas for the Dauphin.

'The Marquis d'Asfeldt only waits for the King's 'Leave, to go to Spain with the Collar of the Golden 'Fleece, with which the late Marshal his Father was 'honour'd by his most Catholick Majesty.'

On *WILLIAM SCREECH.*

HERE lyeth *William Screech*, a Person
Of no extraordinary Birth or Education,
Wealth or Figure;
Yet remarkable and famous,
For his Favour, Friendship and Confidence
With the Fair Sex.
He was endow'd with many rare Qualities
Which procur'd him a free and ready Access
Of displaying himself
With much Advantage at the early Toilet,
The rueful Funeral, the sprightly Marriage,
Or more jovial Christning.
By a sweet Peculiarity, and a very
Singular Adaptation of Talents
He became
An essential Ingredient in the Composition
Of innocent youthful Merry-Meetings:
At which
He shone and excell'd, with an
Indisputable and unrival'd Preheminence.
He was acceptable to the Old, agreeable to the Young,
And was caress'd by Persons of every Sex,
Age and Condition:
But was most untimely snatch'd away
In the Vigour, Flower, and Prime of Life,
To the Grief of many,
And great Loss of all who knew him.
Reader! Henceforth learn from this Monument
That no Abilities, howsoever useful,
—— Or uncommon,
Whether Natural or Acquired,
Can absolve Thee from the great Debt of Nature,
Since
The unexceptionable, unexampled
And ever-memorable Person
Here interr'd,
Was not excus'd by the King of Shadows
With a less Ransom than that of Life.

Yesterday's French Mail brought Advice of a Spanish Ship called the St. George, bound from La Vera Cruz to Cadiz, being arrived at Lagos in Algarve, having 1,200,000 Pieces of Eight, and 400 Serons of Cochi- neal, beside other Goods, Registered; and from Cadiz they write, That a French Ship called the Adventure was arrived there from La Vera Cruz, with above 200,000 Pieces of Eight, and some Cochineal; who, in Sight of the Bay of Cadiz, had been brought to and examined by an English Frigate of 20 Guns. But the French Captain having in time sunk all his Spanish Pa- pers, had the Address to deceive the British Captain, who dismissed him, and he soon after arrived at Cadiz.

And also of
IMPOTENCY *in* MEN, *however occasion'd, or of so long standing,*
The Famous and Inestimable
PROLIFICK ELIXIR,
The highest, richest and most powerful Cordial in Nature, is recommended,

BEING the only true and infallible Cure for BARRENNESS in Women and IMPOTENCY in Men the Universe, and which it at once accomplishes without the least Trouble, even after all other Remedies have fail'd. Thousands have experienced, and that by promoting the ful Curricle of the Blood and Juices, raising all the P from their languid, depressed State, to one more florid sparkling, opening all Obstructions, fortifying the enereasing the Animal Spirits, restoring a Juvenile and evidently replenishing the crispy Fibres of the Habit, with a generous Warmth and balmy Moisture, thereby invigorating it to such a Degree as not to be but by those who have experienced how exceedingly sibly it renovates, recruits, and powerfully strengthens Animal Faculties, and Generative Powers in both Sexes. inforces a bright, lively Disposition, banishes Melancholy, inspires Mirth and Gladness of Heart beyond Expression. bundance of Ladies, who for several Years were deem ably Barren, have after twice taking it, conceived and come Fruitful; and great Numbers of Gentlemen, who fast living, or otherwise, had render'd themselves incapable Procreation, have soon been enabled by it to propagate Species, insomuch, that very many illustrious Families, for want of Children, were almost inconsolable, are now with happy Issue, and are (under Providence) indebted to this Great Medicine for their Heirs. It rectifies all Disorders the Stomach, creates an Appetite, procures a good Digestion and in all Weakness of Body, or Decay of Constitution of Kind, is a most infallible Restorative, and even keeps the Effects of Old Age itself. It is to be taken but a few Drops at a Time, has a very fine Flavour, is pleasant to the Palate, Cordial to the Stomach, and can be had only at Two Blue Posts in Haydon-Yard in the Minories, at 5 *s.* Bottle, with Directions.

The most Fam'd and long Experienced Chymical Drops For ASTHMA's and CONSUMPTIONS,
That have been Sold so many Years, and with such uncommon Success and Benefit to the Publick, by Mr. Parry, *and his Predecessors, in* Bear's-Head-Court, Fleet-street; *and, since Mr.* Parry's *Decease, have been and still are sold in* London *only by Mr.* Read *for* 3 *s.* 6 *d. a Vial, at his House in* White-Fryars. (N. B. *You turn in just by the* Sun Tavern *in* Fleet-street, *and it's the great Corner House in* White-Fryars; JAMES READ, *in great Letters, is wrote over the Door.*)

They are a most Incomparable and never-failing Medicine for the immediate Relief and perfect Cure of the most confirmed ASTHMA *of the longest standing:*

And of all Sorts of CONSUMPTIONS, *even when so far advanced, as not to be cured by any other Medicine in the World.*

FOR their Virtues vastly exceed any Thing that ever was published, or even known in the whole World, in the Cure of the worst Asthma's and Consumptions of all Sorts, Coughs, Colds, Catarrhs, &c.

They instantly relieve the Patient in the most suffocating Fit of an Asthma, and make a perfect Cure in a very short Time; for they gently open the Breast, and immediately give Liberty of Breathing, without danger of taking Cold; they admirably allay the Tickling, which provokes frequent Coughing, and take off the uneasy Sensation of acrimonious Humours, cleanse the small Glands, relax the Fibres, and thereby enlarge the Capacities of the Vessels; thus they regularly and quickly Cure the most obstinate Asthma of the longest standing.

They speedily and to Admiration cure all Sorts of Consumptions, Ulcers of the Lungs, &c. removing all Obstructions of the Breast, and Lungs, Hoarseness, Wheezing, Soreness, Shortness of Breath, and all the usual Symptoms which attend the Beginnings of a Consumption; and, if taken in time, will infallibly prevent one when feared. They are also exceeding attritive and strengthening to Persons of weakly Constitutions, and have no other sensible Operation than to occasion a gentle Breathing in the Night.

And by Parity of Reasoning this most excellent Medicine is (and is well known to be) the most sovereign Remedy in the World for those troublesome spending Coughs, which many are severely troubled with Night and Morning; and also for the Chin-Cough, and Hooping-Cough in Children, having cured Thousands; is so agreeable, and so few Drops to a Dose, that Children take them with Pleasure, and without any Confinement.

In short, these unparallel'd Chymical Drops are the most infallible Remedy that ever was known (and therefore we despise the faint Efforts of all Counterfeiters or Imitators) for the Ailments above-mentioned, and allowed to be so by the most Judicious amongst the Learned in Physick; and confirmed by the largest Experience in private Practice, and are made Publick for Common Good.

N. B. They are sent to many Parts of the World, particularly to his Majesty's Colonies in the West Indies, &c.

Good Allowance is given by the Dozen to sell them again. They will keep good many Years, well cork'd, in any Climate.
